

#CovidSafeguarding- Christmas comms and resources

As we venture into the festive period the CovidSafeguarding partnership have been exploring how we can support safeguarding system leaders and citizens with useful key messages and resources.

We know that typically safeguarding moments increase throughout the festive period and we have heard of domestic abuse, online exploitation, scams, poverty and mental health issues increasing during the pandemic and with families extending their Christmas bubbles this may increase the 'pressure cooker' home environment further. Please find below a collection of resources that you may find useful.
